EFFECTIVE START DATE FOR THE PROGRAM

TERM OF COVERAGE OF THE PROGRAM

Program eligibility will expire upon any of the following three conditions being satisfied:

- The performance or expiry of all Regular Services covered under the Program
- The expiry of 126 months from the original warranty start date
- 157,500km being travelled

SERVICE TIMING DURING THE PROGRAM

In order to maintain the reliability of your vehicle, regular maintenance as outlined in your Vehicle Service and Warranty Booklet is a must. Regular Service intervals are specified for a given period of time or distance (12 months or 15,000km, whichever occurs first) as shown in the table above. If a vehicle does not complete the nominated distance between service intervals, services should still be performed according to the time interval.

We understand that it is not always possible to bring the vehicle exactly at the required date or distance.

For this reason MMAL encourage customers to service their vehicle within 2000km or 2 Months before or after the specified interval. This will ensure their vehicle is maintained according to MMAL requirements and meet the conditions of the Extended Warranty [where applicable]. It is the customer's responsibility to ensure that the vehicle is presented for servicing at each Scheduled Service Interval. If a customer does not take a service opportunity within the defined service time and kilometre limitations then the service will lapse and the customer will no longer be eligible to take advantage of the service opportunity. When this is the case the customer will need to discuss the servicing options available with the authorised Mitsubishi dealership. If any scheduled service is lapsed, then the conditions of the Extended New Car Warranty would not have been met, and the Extended New Car Warranty would no longer be valid. This would not effect your eligibility for the Standard New Car Warranty (i.e. the 5 year / 100,000km) if it has not expired.

Also, your Roadside Assist eligibility (within the first four years) is subject to servicing the vehicle within our requirements. If a scheduled service is lapsed, then the Roadside Assistance is not renewed.

Where a more comprehensive service has been missed and additional service work is required to ensure vehicle function and durability, such as brake fluid, coolant change or valve clearance adjustment, the customer will be provided with a quote for the additional service items required.

AMOUNT PAYABLE FOR A CAPPED PRICE SERVICE

Authorised Mitsubishi dealerships will not charge eligible customers more than the capped price for Regular Services pursuant to the Program. Where additional items are performed not forming part of the current scheduled regular service, or as a result of a previous service not having been performed on-time, additional charges may apply.

TRANSFER OF ENTITLEMENT UNDER THE PROGRAM

Entitlements to the specified capped price for regular services covered under the program that have not yet been performed and have not lapsed will remain with the vehicle if the vehicle is transferred.

* Pricing for future models and model years will be specified upon release of the vehicle and is subject to change from previous model and model years. Please refer to the specific model and model year for your vehicle.
